UM Surabaya is strongly committed to supporting SDG 1: No Poverty through inclusive policies, affordable access to higher education, and various community empowerment programs. As a sustainability-oriented university, UM Surabaya believes that education is one of the most powerful tools to break the cycle of poverty and improve the quality of life for communities.

Entering the Third Enrollment Wave, UM Surabaya Still Opens KIP-K Scholarships — Here Are the Requirements

The new student admission process at Universitas Muhammadiyah Surabaya (UM Surabaya) has entered the third enrollment wave, which is open from July 1 to August 31. Various scholarships are still available at UM Surabaya, including the KIP-K scholarship.

As a high-quality private university, UM Surabaya provides opportunities for outstanding students from underprivileged families through the 2023 Kartu Indonesia Pintar Kuliah (KIP-K) scholarship program.

The KIP-K scholarship is an educational assistance program from the government through the Ministry of Education, Culture, Research, and Technology (Kemendikbudristek) for outstanding high school, Islamic high school (MA), and vocational school (SMK) graduates from economically disadvantaged families. This scholarship aims to expand access and opportunities for Indonesian citizens (WNI) who face economic challenges in pursuing higher education.

"The Head of the Information and New Student Admission Office (LIPMB), Radius Setiyawan, stated that the KIP-K scholarship program at UM Surabaya is available every year, and the number of recipients depends on the quota provided by the government.

The KIP-K Scholarship at UM Surabaya has now entered the third wave. In the first and second waves, we have already selected hundreds of applicants," Radius explained on Monday (July 3, 2023).

According to him, applicants who were declared successful in the previous waves have participated in a university orientation. After being accepted, the UM Surabaya team conducts home visits to ensure that the KIP-K scholarship is awarded to the right recipients.

"Currently, UM Surabaya has gained full trust from the government, enabling all faculties at UM Surabaya to be accessible through the KIP-K scholarship route, except the Faculty of Medicine (FK) and the Faculty of Dentistry (FKG)," he emphasized.

Radius also added that the registration process and document submission for the KIP-K scholarship at UM Surabaya are fully conducted online.

"Prospective students can upload the required documents, including report card scores from semesters I–V with a minimum grade of 7.5, photos of their home condition, and a KIP card or a poverty certificate from the local village office or head of the village," Radius explained.

No Poverty

Furthermore, Radius noted that the interest in the KIP-K scholarship increases each year, with applicants exceeding the available quota.

The high number of applicants for the KIP-K scholarship at UM Surabaya indicates that UM Surabaya is a preferred choice among prospective students. The university remains committed to supporting the government in breaking the cycle of poverty, particularly through education, while expanding access and learning opportunities for everyone.

In closing, Radius added that information about scholarships at UM Surabaya can be found on the university's official website at um-surabaya.ac.id or through the official contact number 085852446337.
