UM Surabaya is committed to advancing SDG 11 by developing a safe, resilient, and environmentally sustainable campus that supports the well-being of its academic community. The university promotes responsible urban practices through green spaces, eco-friendly infrastructure, and disaster-preparedness initiatives that enhance campus safety and sustainability. Through education, research, and community partnerships, UM Surabaya contributes to creating liveable and sustainable communities both on and beyond the campus.

Collaborating with PKK Mothers, Hydroponic Villages Spread in Surabaya

The Student Association of the Accounting Study Program, Faculty of Economics and Business, University of Muhammadiyah Surabaya (UM Surabaya) collaborated with PKK mothers to actively participate in farming in the middle of the City of Heroes.

"Through the food security program during the pandemic, we initiated a hydroponic village, especially in the Kendangsari sub-district, Surabaya," said the group's chairman, Zainal Rusdi, Friday (15/10/2021).

Zainal revealed that the Kampoeng Hydroponics program passed the funding of the Village Empowerment Development Program (P3D) of the Ministry of Education, Culture, Research and Technology.

"Previously, we had also received funding through the Holistic Program for Village Development and Empowerment (PHP2D) in 2020," he said.

Zainal said that the hydroponics program has been running for more than a year in the Kendangsari area. In fact, some places already have hydroponics and have enjoyed the plant results from hydroponics several times.

"There are already several hydroponic units that we have made with residents, and one location we built a greenhouse with a large enough capacity," said Zainal after planting hydroponics.

According to him, the community is very enthusiastic about being involved so that Zainal and his group feel helped and lightly in carrying out the kampoeng hindroponic program.

"During the process of building the green house, the residents were very enthusiastic about being involved so we didn't need to hire a craftsman. And, for the maintenance of hydroponic plants, they also involved PKK women, they formed a structure to run the program," said Zainal.

UM Surabaya KKN Establishes Bumdes Cafe in Wonocempokoayu Tourism Village

The 2022 KKN (Real Work Lecture) activities of the University of Muhammadiyah Surabaya were held in several places, one of which was Wonocempokoayu Village, Senduro District, Lumajang Regency. This year's KKN took the theme "Rise and Work Towards an Empowered Society" and lasted for a month from July 21 to August 25, 2022.

This KKN activity was carried out by UM Surabaya students from various study programs as many as 21 students, under the guidance of DPL (field assistant lecturer) Muhammad Alhakim Danurwindo SE MM.

The intended output is the marketing of village coffee with cardamom coffee innovation and the optimization of village land as a village tourist attraction "Cafe Bumdes".

At the inauguration of Cafe Bumdes, the Head of Bumdes Wonocempokoayu Irfa' in his speech stated that his party really appreciated the results of this KKN activity.

"With this Bumdes Cafe, hopefully the interest of tourists outside and within the village can increase. As well as have a positive impact on the economy and the development of Wonocempokoayu Village," he explained.

Meanwhile, the Chairman of the Wonocempokoayu KKN Group, Ikhlasul Amal, said that this KKN service activity was carried out to achieve the empowerment of the people of Wonocempokoayu village.

"The realization of the results of this activity would not have been possible without the assistance of several KKN partners, such as the Muhammadiyah Senduro Branch Executive, the Wonocempokoayu Village Apparatus, and of course the Wonocempokoayu village community. We are very grateful to all KKN partners and apologize for all shortcomings that existed during the KKN activities," he explained.

On the other hand, DPL KKN Muhammad Alhakim Danurwindo explained, in general, many work programs have been carried out by the KKN team in Wonocempokoayu Village during KKN activities. Among them are the following:

1. Collaboration Activities with Village Youth in the form of Competition Activities to commemorate the Indonesian Independence Day.
2. Conducting educational activities at SD Negeri Wonocempokoayu 1 and 2
3. Socialization of organic animal feed for goat farmers.
4. Selling Village Coffee at the Volleyball Competition event as a marketing effort.
5. Village coffee innovation with the name "Coffee Pucata".
6. The core program is the construction of Cafe Bumdes as an effort to increase village tourism.

"Hopefully the results of the work program that has been implemented can help the people of Wonocempokoayu Village, especially in encouraging the rise of community empowerment," he said.
